

# Beams

As part of our aluminum shoring system we provide 6 1/2in Aluminum Beams (AJGS) of different lengths complete with wood or plastic nailers, as per customers' request. Accessories, such as aluminum "A" Clamps Assembly and T-Bolts are available to complement the system.

# Stringers

As a primary support system we provide 7 1/2 in Aluminum Stringer Beams (AS75). Different lengths are available to better suit customers' requirements.

# Strongback

For wall form panel construction we provide Aluminum Strongback Channel complete of accessories such as splice plates and lifting lugs.
