

Beams

As part of our aluminum shoring system we provide 6 1/2in Aluminum Beams (AJGS) of different lengths complete with wood or plastic nailers, as per customers' request. Accessories, such as aluminum "A" Clamps Assembly and T-Bolts are available to complement the system.

Stringers

As a primary support system we provide 7 1/2 in Aluminum Stringer Beams (AS75). Different lengths are available to better suit customers' requirements.

Strongback

For wall form panel construction we provide Aluminum Strongback Channel complete of accessories such as splice plates and lifting lugs.

Strong back Section
