

Faresin

We have available upon inquiry Wall Forms, Pillar Forms, Elevator Housing, Alufort and Alutech Slab system.

Elevator Housing Form

Pillar Form

Elevator Housing Forms are used to pour forms in a tight confined space and have 4 convenient tapered blocks to lift out the form.

Wall Forms are a fast and safe way to assist with building a wall.

Pillar Forms are used to pour columns

The **Alufort** (suitable for 20kN) and **AluTech** (suitable for 21-75kN) Systems are used for pouring floors with a collapsible head which allows for easy stripping.
